

ROECKPLAST ACRYLIC ROUND RODS PAD BUTTONS / RIVETS

HEAD RIVETS / PAD BUTTONS

Head rivets and pad buttons are preferred for clamping soft materials, such as leather, foam rubber or felt, as their specially shaped head renders the use of washers unnecessary.

Moreover, the riveting process is facilitated and, at one end of the rivet, a head shape is achieved that could not have been formed by heating it.

HEAD RIVETS

ORDER NO.	HEAD	DIAMETER	LENGTH	UNIT
N204K12	12 mm	4 mm	12 mm	10 pieces
N204K16	12 mm	4 mm	16 mm	10 pieces
N204K25	12 mm	4 mm	25 mm	10 pieces
N205K12	12 mm	5 mm	12 mm	10 pieces

PAD BUTTONS

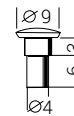

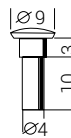

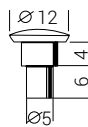

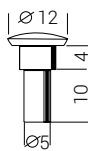

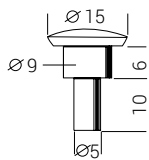

PK215

PK214

PK212

PK211

ORDER NO.	HEAD	DIAMETER	LENGTH	UNIT
PK211	9 mm	4 mm	10 mm	10 pieces
PK212	9 mm	4 mm	14 mm	10 pieces
PK213	12 mm	5 mm	11 mm	10 pieces
PK214	12 mm	5 mm	15 mm	10 pieces
PK215	15 mm	5 mm	18 mm	10 pieces

RIVETS (without head)

Made of Plexidur® (PMMA/polymethyl methacrylate), without heads, are available in custom lengths for a minimum order quantity of 50 pieces. The riveting process with Plexidur® is exceptionally easy. It is not done mechanically, using a rivet header is unnecessary, and any damages to the materials to be riveted are prevented. The specially treated neck of the rivet is heated using a hot air blower (with exchangeable

nozzles) until a round head forms automatically. A countersunk head can be formed simply by flattening the soft head. The required length of the neck of the rivet depends on the desired head shape. As a rule, the neck of the rivet should protrude by about 2 mm to provide sufficient material for forming a round head.

ACRYLIC ROUND RODS (short, without head)

ORDER NO.	HEAD	DIAMETER	LENGTH	UNIT
N20412	without head	4 mm	12 mm	10 pieces
N20416	without head	4 mm	16 mm	10 pieces
N20512	without head	5 mm	12 mm	10 pieces
